DETAILED ACTION

1. Newly submitted claim 36 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The inventions of claim 36 and the original invention of claim 7 are distinct if it can be shown that either: (1) the process as claimed can be practiced by another and materially different apparatus or by hand, or (2) the apparatus as claimed can be used to practice another and materially different process. (MPEP § 806.05(e)). In this case the process as claimed can be practiced by another and materially different apparatus, an apparatus doesn't need to be deployed at substantially the same locations as the EM field receiver.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 36 has been withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

2. Claims 1-2, 4, 7-34 and 37-38 are allowed.
